victor,  
i've passed along the complaint to the Denver Wastewater Managment Division and asked them to contact you when it's resolved.  
thanks for letting us know about it... looks kinda' nasty in the photos.

Subject: Broken Sewer Line at 3552 Elizabeth Street

Gene,

During meeting with the property owner at 3552 Elizabeth St to develop a restoration agreement, a broken sewer line which has created a pool of raw sewage was discovered. Attached are several photos of the pool of raw sewage found. EPA will not begin soil removal on this property until the sewage problem is taken care of. Could you forward this information to whom ever at the City that handles these types of health issues.

Please keep me informed on this issue is being resolved.

Thanks,

Victor Ketellapper, P.E.
